## PROFESSIONAL EXPERIENCE

**Accenture**  
*Summer Analyst – Technology Strategy*

*Montreal, Canada*  
May 2025 – Aug. 2025

- Supported AI tool integration and agentic software adoption across a 700-person IT organization at a national rail operator, defining rollout sequencing, user enablement criteria, and adoption KPIs.
- Designed productivity metrics and adoption tracking frameworks to measure AI tool impact post-deployment, enabling data-driven go/no-go decisions across business verticals.
- Structured a multi-level AI adoption coaching framework with senior directors, translating Accenture's Transformation GPS methodology into actionable enablement playbooks for engineering teams transitioning to AI-augmented workflows.

**KPMG**  
*Management Consulting Intern – Banking Technology and Capital Markets*

*Montreal, Canada*  
Sep. 2024 – Dec. 2024

- Supported the project management team in a major Core Banking transformation project (\$400M), ensuring continuity across 50+ impacted applications, including ML-driven fraud detection and credit scoring, through SIT, UAT, and deployment cycles.
- Designed and deployed dynamic Power BI dashboards to monitor project performance, KPI trends, and critical delivery risks in real time, enhancing executive reporting and data-driven oversight across the transformation.
- Benchmarked technology modernization strategies across Canada's and Europe's largest banks, with a focus on AI/ML adoption maturity, cloud migration, and data platform investments.

**Aon**  
*Cyber Risk Intern*

*Montreal, Canada*  
May 2024 – Aug. 2024

- Analyzed and assessed clients' cyber compliance against insurers' requirements and industry best practices, identified control gaps, and developed targeted recommendations to strengthen their cyber posture.
- Negotiated and secured cybersecurity insurance contracts with major underwriters, ensuring optimal policy terms for clients.
- Produced and managed a Power BI dashboard using raw company data, delivering comprehensive analysis of team performance and peer benchmarking for thousands of clients and internal teams.

*Risk Management Intern*

May 2023 – Aug. 2023

- Analyzed client datasets and asset inventories to identify key risk exposures and support risk management strategy formulation.
- Automated the transformation of unstructured client information into standardized formats for downstream analysis and reporting.
- Worked closely with the technology team to explore opportunities for automation in routine workflows and contributed to the redesign of existing risk management platforms and tools across risk consulting teams.

**John Molson Undergraduate Case Competition (JMUCC)**  
*Vice President of Corporate Relations*

*Montreal, Canada*  
May 2022 – May 2023

- Organized the largest and most prestigious international undergraduate case competition in the world, involving 28 universities.
- Secured \$110,000 in monetary sponsorship through building partnerships with 31 companies, and managed a \$300,000 budget.

## EDUCATION

**IE University, School of Science and Technology**  
*Master's in Data Science and Business Analytics*

*Madrid, Spain*  
Sep. 2025 – Jul. 2026

- 180Degrees Consulting Madrid Consulting Director, IE Consulting Club Special Projects Lead, Advanced AI Concentration.
- Coursework: Machine Learning, Deep Learning, MLOps, Cloud Data Analytics, Statistics, Generative AI, Process Mining.

**Concordia University, John Molson School of Business**  
*Bachelor of Commerce, International Business*

*Montreal, Canada*  
Sep. 2021 – Apr. 2025

- Received the CASA & Molson Bursary for outstanding leadership.
- Beta Gamma Sigma International Honor Society (top 5%) and Golden Key International Society (top 15%).
